Our library is the biggest of these that have literally hundreds of thousands of different products represented.

Book Descriptions:

brother t96 fax manual

WARNING There are high voltage Do not handle the plug with wet electrodes inside the fax hands. Doing this might cause machine. Before you clean the an electrical shock. Never touch telephone wires or terminals that are not insulated unless the telephone line has been disconnected at the wall socket. Never install telephone wiring during a lightning storm. Never install a telephone wall socket in a wet location. Put the fax machine near a telephone socket and a standard, grounded power outlet. This fax machine is simple to use, with LCD screen instructions to guide you through programming it. You can make the most of the fax machine by taking a few minutes to read this Guide. Name Description Telephone Handset You can call someone by using this. Handset Curled Cord To connect the machine and the telephone handset. External Telephone Line Plug in the modular plug on the external socket telephone line here. Also lets you look up numbers stored in the dialling Use to shuttle the line between memory. Without a document in the ADF Lets you access the Reports menu so you can select a report to print HELP LIST, QUICKDIAL, FAX JOURNAL, XMIT VERIFY, TEL.INDEX, USER SETTINGS and. Also lets you look up Speaker Phone. With a document in the ADF Makes a copy. Press to scroll forward or backward Without a document in the ADF to set a menu selection. These are quiet, intermittent beeps every Fax Start 4seconds. You'll hear them after you dial and press they will continue for about 60 seconds after dialling. During that time, the sending machine must begin the "handshake". ECM transmissions are only possible between machines that both have this feature. If they do, you may send and receive fax messages that are continuously being checked by the machine. To disconnect the call on the external phone and switch to the fax, lift the handset and press for FAXT94 only or Speaker Phone for FAXT96 only. 1 10 INTRODUCTION. <http://topofirms.com/upload/file/daikin-europe-nv-manual.xml>

- **brother fax t96 manual, brother t96 fax manual, brother t96 fax manual download, brother t96 fax manual pdf, brother t96 fax manual free, brother t96 fax manual instructions.**

However, when you have an external TAD on the same telephone line as the machine, the TAD answers all calls and the machine "listens" for fax calling CNG tones. Set the TAD to answer calls. Set the Receive Mode to TADANSWER MACH. For FAXT94 only. On FAXT96, set the Receive Mode to TADMSG MGR. See Choosing the Receive Mode on page 51. 1 12 INTRODUCTION. The message sets up the ways to handle both manual and automatic fax reception. Record 5 seconds of silence at the beginning of your message. This allows the fax machine time to listen for the fax CNG tones of automatic transmissions before they stop. Limit your message to 20 seconds. While the simplest arrangement is straightforward parallel connection, there are some reasons as to why this arrangement will cause unsatisfactory service, the most obvious of which is inadvertent interruption of a facsimile transmission by someone picking up an extension telephone in order. While it is often relatively simple to connect the machine to a key system or a PABX Private Automatic Branch Exchange, we suggest that you contact the company that installed your telephone system and ask them to connect the Fax machine for you. Keep the paper flat and away from moisture, direct sunlight and heat. Tap the stack of paper so the edges are even. Gently insert the paper. The side to be printed on must be face down. Paper 2 2 PAPER. Userfriendly programming helps you take full advantage of all the menu selections the fax machine has to offer. Since your programming is done on the LCD, we have created stepbystep onscreen instructions to help you program the fax machine. Then the LCD shows the next menu level. Press to scroll to your next menu selection. RING DELAY On FAXT96, you can set Toll Saver feature. DOCUMENT Select if memory will store 8. SETUP TAD 1.

MESSAGE STORE DOCON fax, voice or both. FAXT96 Only DOCOFF VOICEON VOICEEXT
VOICEOFF Automatically prints a copy 2. BACKUP PRINT of faxes received into
memory. <http://aimic.com/userfiles/daikin-faq71b-manual.xml>

If you have Pulse dialling service rotary, you need to change the dialling mode. Setting the Station ID
You should store your name or company name and fax number to be printed on all fax pages that you
send. The telephone number will appear on cover pages you send. Use the dial pad to enter your
name up to 20 characters. Then press All the letters above and to the right of the cursor will be
deleted. Reenter the correct characters. The new setting will remain until you change it again.
Setting the Ring Volume You can adjust the ring volume when your machine is idle. You can select a
ring volume level or press until the ring is off. However, many offices use a central telephone system
or Private Automatic Branch Exchange PABX. Your fax can be connected to most types of PABX. The
recall facility on the machine supports timed break recall only TBR, PABXs normally can work with
this for gaining access to an outside line, or for transferring a call to another extension The feature
works. The default setting is SIGNAL. The page 91. messages are stored in order on a first come first
served basis. Toll Saver must be off for the machine to operate using your Ring Delay setting. See
Setting the Toll Saver on page 910. Selecting ON allows the fax machine to receive fax calls
automatically, even if you lift the handset of an extension or external phone. When you see RECEIVE
on the LCD or when you hear "chirps". Choose 100% if you don't want a reduction. When you press
the Fax Receive Code, the fax machine starts to receive a fax. Don't hang up the call from the
cordless phone until the voice call has been transferred to the fax machine. You will know when this
is because you will no longer be able to hear or talk to the caller via the cordless phone. You can use
Secure Polling only with another Brother fax machine. Anyone who polls to receive a fax must enter
the polling secure code. This is the same as the security code of the fax machine you are polling.

You just specify several destinations in Step 4. Afterward, a Sequential Polling Report will be
printed. Advantages of Caller ID For Business All businesses profit from a quicker response to
customer calls. The 31st call will cause the oldest ID to be erased. The Caller ID information stored
in the memory can be used for the following. Clearing the Caller ID Stored in Memory For FAXT96
only You cannot change the receive mode to the other mode while the BT Call Sign is set to on. If
you are using FAXT96 and set TAD mode, the receive mode is not set to MANUAL. Manual dialling
Press all of the digits of the phone or fax number. OneTouch dialling Press the OneTouch key of the
location you want to call. Speaker Phone IMPORTANT Do not pick up the handset or press for
FAXT96 only. Insert the document face down, top edge first in the ADF. Adjust the paper guides to
fit the width of your document. Enter the fax number you want to call. You can enter the digits using
the dial pad, or you can enter a OneTouch or SpeedDial. After each setting is accepted, the LCD will
ask if you want to enter more settings Press to select more settings. Press Resolution repeatedly
until the LCD shows the setting you want. Suitable for most typed documents. STANDARD Good for
small print and transmits a little FINE. The display returns to the Setup Send menu. —OR— Press if
you are finished choosing settings, and go to Step 5. The screen prompts you to enter the fax
number you want to call. If you have more than two jobs waiting, press to select the job you want to
cancel. Your cover page includes the name stored in the OneTouch or SpeedDial memory, if you
have used a quickdial number to make the call. The cover page indicates the fax is from your Station
ID, and the number of pages you are sending. You can set the fax to send a cover page with a
particular document. This cover page will include the number of pages in your document.

You can set your machine to send a cover page whenever you send a fax. After you send a fax using
this feature, the feature will turn itself off. Insert the document face down in the ADF. If you set Call
Reservation to ON, the screen displays the current setting for Call Back Message. Press to select ON
or OFF. Insert the document face down in the ADF. Insert the document to be retrieved in the
ADF. Insert the document face down in the ADF. You can use Secure Polling only with another

Brother fax machine. Your fourdigit ID number must be entered on the fax machine that polls for your documents. If you get an OUT OF MEMORY message while scanning a subsequent page, you will have Fax Start the option to press to send the pages scanned so far, or. However, you cannot use automatic redial or the Menu mode. Enter the current password. If you lose electrical power, the quickdial numbers that are in the memory will not be lost. The fax machine can store 100 SpeedDial numbers. First, you'll need to store each fax number as a OneTouch or SpeedDial number. Then, you can combine them into a Group. Each Group uses up a OneTouch key. Pick up the handset. —OR— Speaker Phone Press for FAXT96 only. When you hear a dial tone, dial the number using the dial pad. To hang up, replace the handset. —OR— Speaker Phone Press for FAXT96 only. If you picked up the handset or pressed Speaker Phone Fax Start for FAXT96 only, press when the receiving fax machine answers with fax tones. SpeedDialling Pick up the handset. You can select to play or not to play a music during a call put on hold. See Setting the Music on Hold on page 48. Speak clearly, toward the microphone. To end the Speaker phone call, press If you have a bad telephone line connection, the other party might hear your voice echoed during the call. If you have Touch Tone service, you will not need this feature to send tone signals. Pick up the handset. If you have model FAXT96, your remote fax options are handled by the Message Manager.

Programming a Fax Forwarding number When Fax Forwarding is set to ON, the fax machine stores received faxes in the memory. The LCD will show when you have a fax stored in memory. Before you use the remote access and retrieval features, you have to set up your own code. Cut out the Remote Retrieval Access Card on the last page and keep it in your wallet to help you. Using your remote access code Dial the fax number from a telephone or another fax machine using touch tone. When you call the fax machine and enter your Remote Access Code 3 digits followed by , the system will give two short beeps and you must enter a remote command. Remote commands Operation details Change the Fax Forwarding. When the fax machine answers, immediately enter your Remote Access Code 3 digits followed by . If you hear one long beep, you have messages. As soon as you hear two short beeps, use the dial pad to press Wait for the long beep, and then use the dial pad to enter the number of the remote fax machine where you want your fax messages sent to followed by . The memory stores 15 minutes of voice messages, or up to 20 pages of fax messages. You can use the Fax Forwarding or Paging features and retrieve voice and fax messages remotely. Press to select your setting from the list ON, OFF or EXT . Make sure your OGM Outgoing Message is less than 20 seconds long. If you press the flashing to turn off the PRINT DOC. Message Manager before getting your. The screen displays the number of the current message, and the total number of messages. After playing voice messages, the PRINT DOC. Fax messages cannot be erased individually. You can erase voice messages individually, or all at once. You can change this setting to any length from 35 seconds to 60 seconds in 5second increments. When you turn the monitor OFF, you will not hear messages as they come in. You can also program and change some settings for your Message Manager.

Before you use the remote access and retrieval features, you have to set up your own code. When you call the fax machine and enter your Remote Access Code 3 digits followed by , the system will signal you with two short beeps to enter a remote control command. Remote control commands Detail Operation 91 Playing voice messages After one long beep, the machine plays ICM. Dial your fax machine's number. When you hear the beep, immediately enter your Remote Access Code 3 digits followed by 9 6 1 When you hear two short beeps, use the dial pad to press Using the dial pad, enter the number up to 20 digits of the. Dial your fax machine's number. When you hear the beep, immediately enter your Remote Access Code 3 digits followed by 9 5 4 When you hear two short beeps, use the dial pad to press. This report lists the time and date of transmission and whether the transmission was successful OK. If you set the journal period to OFF, you can print the report by following the steps on the next page. This information will remain until you pick up the handset or

press Speaker Phone for FAXT96 only. Lists names and numbers stored in OneTouch 5.TEL.INDEX and SpeedDial memory, in alphabetical order. Always make sure you have paper in the paper tray before making copies. Copy Key Incoming faxes cannot be received on paper or into the memory while the fax machine is copying. The default resolution for a single copy is S.FINE. Set the Resolution resolution to PHOTO for photographs by using the key. Save them for later reference. Follow all warnings and instructions marked on the product. Unplug the fax machine from the wall outlet before cleaning. To clean the casing of the fax machine use a damp cloth, do not use liquid or aerosol cleaners. Do not place this product where people can walk on the cord. If an extension cord is used with this product, make sure that the total ampere ratings on the products plugged into the extension cord do not exceed the extension cord ampere rating.
